# TOWN OF VAIL Parking Access and Revenue Controls System Various Parking Facilities ADDENDUM #1

**Date: October 29, 2021** 

#### 1.01 GENERAL

The following clarifications, changes, additions, and/or deletions are, by issuance of this Addendum made a part of the Request For Proposal for "Town of Vail Parking Access and Revenue Controls System Various Parking Facilities" as if originally contained therein. This Addendum shall be acknowledged within the submitted proposal. Failure to do so may result in rejection of the proposal.

#### 1.02 CLARIFICATIONS

The base package PARCS system will include no less than 29 License Plate Recognition (LPR) cameras connected with the PARCS system to increase transaction speed and lane throughput. Bidders are required to include lane diagrams showing the proposed placement of front and/or rear plate scanning LPR cameras in each entry/exit lane. Any changes to existing lane designs must be clearly detailed and noted in submissions. The proposed LPR system will maintain a read accuracy rate of greater than 90% of visible plates scanned.

#### November 1, 2021 - TIME 1:00 pm

There will be a mandatory site visit of facilities by interested vendors. No RFP'S will be accepted by a vendor that fails to attend this meeting.

Meeting Location

Department of Public Works Admin Conference Room 1309 Elkhorn Drive Vail, Colorado 81657

Phone 970-479-2158
