Please provide name, company name, address, phone number, email address and trade in the body of the email. Bidders must print their own copies.

### **Brief Description of Work**

The work for this project will require expertise in excavation, site work, and carpentry. The work includes the creation of level gravel viewing pads, concrete footings, modifications to existing wood railings and tables and the installation of custom-made interpretive site components provided by others. The interpretive components include irregular gabion baskets, aluminum informational panels/signs, sighting tubes/scopes and small steel or bronze sculptures located at nine “stations” along the paved Gore Valley Trail recreation path. Gravel pads and concrete to be installed during Fall of 2023, interpretive components to be installed during Spring of 2024.

### **Pre-Bid Meeting**
