# Instructions for Final Project Cost Reconciliation Return

## General Instructions

### Purpose of Form

This form is used by taxpayers to calculate the actual use tax due from construction projects requiring Town building permits and reconcile such tax with the estimated prepayment remitted when the permit was obtained. Any underpayment must be remitted with this report within ninety (90) days of the date of a Final Inspection. This report will also serve as a Claim for Refund in the case of an overpayment. File a separate return for each project.

### Reminders

**Primary contractor is liable for use tax.** Pursuant to Title 2, Chapter 8 of the Vail Town Code, the person who is responsible for obtaining a Town building permit shall remit use tax on construction materials used on that project. This includes all materials, including materials used by subcontractors, purchased from sources inside or outside the Town.

**Setoff of other taxes prohibited.** Contractors must present a copy of the Town building permit when purchasing materials to avoid payment of municipal sales or use taxes. Contractors may not take credit against the Town of Vail use taxes for taxes paid to other jurisdictions.

#### Supporting documentation required for refund claim.

Contractors claiming an overpayment of use tax must submit with this report a copy of the Town building permit and a job cost report, along with any other documentation requested. If some work on the project was performed by subcontractors, project cost reports declaring their materials costs must also be submitted.

**Report does not preclude audit.** Projects may be selected for further examination by the Use Tax Division. If this project is selected, you will be contacted by an auditor to schedule a time to review additional documentation. Town Code requires that records be preserved for at least three years after the final Certificate of Occupancy is issued.
